SECURITY TIPS

Aspen Properties encourages these security reminders to help eliminate any unnecessary issues that may occur:

- Notify security if your office is scheduled to be closed when the rest of the building is scheduled to be open. Full floor tenants can be secured to allow only authorized elevator access to that floor.
- Offices are most vulnerable to thieves early in the morning, lunch hours, and right before closing. Encourage your employees to be aware of unfamiliar faces and to notify the appropriate person(s) within your organization of any concerns or to contact Security.
- Lock all doors and verify that they are properly locked when securing your premises at the end of the day. We recommend locking your suite entry door whenever the reception area is unmanned.
- Do not allow anyone to 'piggyback' into Northland Place or the elevator. Ensure the person entering with you has his/her own access card.
- Consider engraving and recording all business equipment with serial numbers to aid Police in locating equipment if stolen.
- Keys kept on a ring should never have an identification tag.
- Do not leave handbags, briefcases, laptop computers, etc. in clear view. Coats should be hung in a coat closet since thieves often search through pockets looking for keys or money. Do not leave wallets in jackets hanging on chair backs and other articles of value unguarded even for a few minutes.
